

Levels of Partnership for a Local Church

We would love to help you plan and implement a strategic missions focus in your church.

Money/Prayer Level

Donating money (on-going) to help send/maintain a missionary on the field. Opportunities for prayer.

Adopt a Missionary Level

All of the above plus...

A commitment to maintaining the missionary on the field and their work. ST Teams to support the missionary. A number of people in your church have a personal relationship with the missionary. Meeting needs of the missionary (care packages, special financial needs, furlough needs)

Begins to engage more of the church. People are using their gifts and are beginning to engage in the Great Commission. 'Missions' has a face.

Adopt a People Group Level

All of the above plus...

Adopt an un-reached people group. Help to plan and support a broader effort to reach these people. Begin to focus teams/funding towards this people group and adopting other like-minded missionaries to this people. Potentially send out workers from your church to this people. Supporting/sponsoring nationals for training/internships. Your church knows the needs of this people and prays/engages with them.

Larger group of people are directly involved. The church as a whole begins to see God's plan for the nations and begins to own that vision. Prayer becomes focused. 'Missions' becomes a tangible reality for the church, and people rejoice as they see God in action.
